- Original all-angle ball joint mirrors with brushed finish stainless steel mirror backs.
- Fast, accurate visual inspection of hidden areas with an almost limitless number of portions.
- Double ball joint links swivel mirrors for viewing to **360°**. Precision engineered links are manufactured from tempered spring steel to withstand the stresses of constant repositioning. They move freely, and hold required position.

### FEATURES

- Replaceable copper backed clearview mirrors.
- Telescoping and pocket models. Non-rotating inner hex rods on telescopic models prevent mirror from swinging out of alignment when in use.
